## Report of Principal and School Improvement Council

What a great school year! We applied for the Magnet Schools Assistance Program (MSAP) grant to fund the process of becoming an International Baccalaureate School. In October 2010 we received the good news that we received the grant. We began the application process and then participated in professional development through the International Baccalaureate Organization (IBO). Through the collaborative efforts of the faculty and staff we completed and submitted Application A to become an International Baccalaureate Candidate School. In June 2011 we received the good news that we are an official International Baccalaureate Candidate School. This school year we have focused on getting ready to go through the process of becoming an authorized International Baccalaureate World School.

With funding from the MSAP Grant we added a music keyboard lab. All of our kindergarten through fifth graders are learning to play the keyboard and composing their own music with digital software. We also purchased Mango which is a web-based program that teaches students a world language. Students can choose from over 40 different languages to learn. Since it is web-based students can access Mango from school or home as long as they have access to the Internet.

Faculty and staff collaboratively designed our Windsor Story which is a brief video about our school. The Windsor Story will be featured on our school website as part of our marketing efforts.

In addition to working on becoming an authorized International Baccalaureate school, the faculty and staff have been participating on design teams, learning about engaging and authentic work as outlined by the Richland School District Two framework, developing engaging lessons, and getting to know the parents and students of the Windsor Elementary community better.

Our focus for this coming school year is to revise our inquiry units as we integrate the common core standards and to complete Application B to become an International Baccalaureate World School. We will continue to design engaging work for our students which will allow Windsor Elementary to continue to be a place where children learn, grow, and dream. Thank you to all of our Windsor families for your continued support.

ESEA/Federal Accountability Rating System

In July 2012, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/eSEA/> or request this information from your child's district or school.
